Highlights

Cold use

To sooth sore or engorged breasts. Keep in fridge or freezer. Always use with sleeves.

Developed with an expert

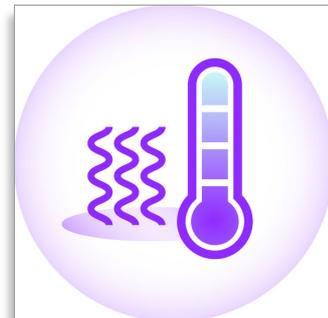

Developed with midwife and baby adviser Vicky Scott who has been supporting mums with breastfeeding for 15 years.

Includes soft sleeves

For greater comfort on skin

Warm use

To stimulate milk flow before breast feeding. Lightly dampen the sleeves, as moist heat gives an extra comfortable feel and helps stimulation. Heat the pad in hot water for 10 minutes.
