

Rocky

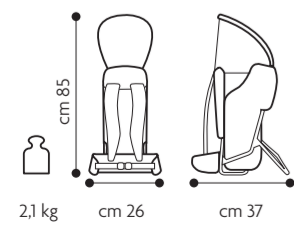

Item 209

The best technical product for trekking with babies

The Italian Alpine Club has elected the Brevi Rocky back baby carrier as the best technical product for trekking with babies up to 15 kg weight. Brevi joins the CAI UNICEF's project "let's help the young to climb the future"

Complies with
EN 13209-01 - Age group: up to 15 kg

For the child:
Soft padded leg holes
Safety harness for the baby with soft shoulder straps and padded button covers.
Adjustable in 4 positions for stability and convenience of the child

Reflective stripes for visibility and night-time safety

Many pockets so that you can have everything handy: bottle holder pocket on a side and two storage compartments on the back and practice pouch

Back protection with ergonomic padding and perspiration-proof breathing material

Waist band and adjustable padded shoulder straps, allow ideal distribution of the child's weight

Amaranth Red
