INSTALLING THE BATTERY (FIG. 3)

INTRODUCTION

Thank you for choosing the LANAFORM Digital Thermometer DT-100. Combining accuracy and ease of use, this thermometer allows your baby's rectal, oral or under-arm temperature to be taken. The thermometer lends itself well to measurements being taken at home. With its ultra-flexible tip, the Digital Thermometer DT-100 is comfortable and gentle for your baby. Quick to use, it takes your temperature in just 10 seconds.

TITLE AND DESCRIPTION OF DISPLAY SYMBOLS ON THE SHEET DESCRIBING THE PRODUCT'S FEATURES

LANAFORM's advice

Never compare temperatures taken with different thermometers. Tell your doctor which thermometer you have used to take your body temperature and where on the body. Please also bear this in mind when self diagnosing.

The thermometer may overheat if it is held too long in the hand before taking your temperature. This may skew the result of the operation.

DESCRIPTION OF THE DEVICE

Thermometer (FIGURE 1)

- 1 Display screen
- 2 STOP/START button
- 3 Battery compartment cover
- 4 Probe

Please note: see instructions for use

Please note: consult the enclosed documents. Please read these instructions before using the device. Please also follow these instructions carefully when using the device.

Notified body

European representative

Electrical and electronic waste (WEEE)

The device should not be disposed of with other household waste at the end of its serviceable life.

If the low-battery symbol lights up when the thermometer is switched on, replace the used battery with a new one.

SETTINGS

Selection of the unit

If the thermometer is switched off, switch it on by pressing it continuously for 3 seconds to select a unit of measurement. After 3 seconds, the screen will display either °C or °F. Start the operation if the unit displayed on the screen does not meet your expectations.

INSTRUCTIONS FOR USE

Measurement process

Measuring body temperature

Please remove the protective film covering the battery compartment before using your thermometer for the first time.

To start the thermometer, press the STOP/START button briefly. A short audible signal indicates that the device is switched on and all the existing icons will appear on the screen for a second.

2 °C (°F) and the value of the last measurement taken (memory function) appear one after the other and briefly on the screen.

3 The °C (°F) measuring symbol then flashes and the thermometer is therefore ready for use.

4 The °C (°F) measuring symbol then flashes and the thermometer is therefore ready for use. The measurement process ends when the temperature stabilizes. An audible signal (10 long beeps) is then heard, the °C (°F) constantly flashes when the value of the temperature taken is permanently displayed.

5 If the temperature taken is below 32 °C (89.6 °F), the °C (°F) unit of measurement will flash and "Lo °C (°F)" will be displayed on the screen. If the temperature taken is above 42.9 °C (109.9 °F), the °C (°F) unit of measurement will flash and "Hi °C (°F)" will be displayed on the screen.

6 Do not expose the thermometer to electric shocks.

7 Do not expose this thermometer to extremes of temperature above 55 °C (131 °F) or below -25 °C (-13 °F).

8 Do not use the device if the relative humidity is above 80% or below 25%.

9 When using this product, please make sure you follow all the instructions listed below. Any deviation from these instructions may cause injury or affect the accuracy of the readings.

10 Contact a doctor if you have any concerns about the accuracy of the reading. Making any diagnosis or starting any treatment without a doctor's advice may pose a risk.

11 Always keep the thermometer away from heat sources such as stoves, radiators, etc.

12 Do not use this device in a room which aerosols (sprays) are used or in a room in which oxygen is administered.

13 Do not place the thermometer in direct sunlight, or expose it to high temperatures, humidity or dirt.

14 Do not immerse the device in water.

15 Do not drop the device and do not use it if it is damaged.

16 This device must be used at an ambient temperature between 10°C/50°F and 35°C/95°F.

17 Do not expose the thermometer to electric shocks.

18 Do not expose this thermometer to extremes of temperature above 55 °C (131 °F) or below -25 °C (-13 °F).

19 Do not use the device if the relative humidity is above 80% or below 25%.

20 The thermometer is pre-set when it leaves the factory. You do not therefore have to calibrate the device when

you first use it.

- Body temperature is generally lower in the morning and gradually rises throughout the day. Please therefore take your body temperature at the same time during the day and under the same conditions of use.
- Consult your doctor if you are taking any medicine. These might increase your body temperature.
- The device's performance may be adversely affected if the thermometer is used outdoors.
- The thermometer should only be used indoors.

21 Your doctor will advise you.

INSTALLATIE BATTERIJ (FIG. 3)

• Automatische uitschakeling: de thermometer wordt na 10 minuten inactiviteit automatisch uitgeschakeld.

INFORMATIE OVER DEZE THERMOMETER

De waarde van de gemeten temperatuur varieert naar gelang van de plaats op het lichaam waar de meting plaatsvindt. Bij gezonde mensen kan dat variëren tussen 0,2 °C en 1 °C (0,4 °F tot 1,8 °F) naar gelang van de plaats op het lichaam.

Normaal temperatuurbereik tussen verschillende thermometers

	Temperatuurwaarden	Gebruikte thermometer
Frontale thermometer	35,8 °C tot 37,8 °C (96,4 °F tot 100,4 °F)	Frontale thermometer
Oortemperatuur	35,8 °C tot 38 °C (96,4 °F tot 100,4 °F)	Oorthermometer
Orale thermometer	35,5 °C tot 37,5 °C (95,9 °F tot 99,6 °F)	Gewone thermometer
Rectale thermometer	36,6 °C tot 38 °C (96,8 °F tot 100,4 °F)	Gewone thermometer

INLEIDING

Wij danken u voor de aankoop van de *Digital Thermometer DT-100* van LANAFORM. Met deze thermometer, die precisie en gebruiksvriendelijkheid combineert, kunt u de rectale, orale of axillaire temperatuur van uw baby meten. De thermometer is geschikt voor thuisgebruik. Dankzij zijn zeer soepele uiteinde is de *Digital Thermometer DT-100* zeer comfortabel en tactiel voor uw baby. Hij is meet de temperatuur van uw baby zeer snel in slechts 10 seconden.

LEES VOOR HET GEBRUIK VAN DE THERMOMETER ALLE INSTRUCTIES IN EN HET BIJZONDER DEZELVE BELANGRIJKE VEILIGHEIDSVOORSCHRIFTEN

• Zorg ervoor dat u zich bij het gebruik van dit product houdt aan alle onderstaande voorschriften. Niet-taaien van deze voor schriften kan de nauwkeurigheid van de metingen beïnvloeden.

• Neem eventueel contact op met een arts voor meer informatie in verband met de gemeten temperatuur. Een diagnose stellen en een behandeling instellen zodra het advies van een arts kan een risico inhouden.

• Hou de thermometer altijd uit de buurt van warmtemonsters zoals kachels, radiatoren, enz.

• Gebruik dit apparaat niet in ruimtes waar spuitbussen (sprays) worden gebruikt of waar extra zuurstof is voorzien.

• Stel de thermometer niet rechtstreeks bloot aan zonnestralen, hoge temperaturen, vochtigheid of vuur.

• Dompel het apparaat niet in water onder.

• Laat het apparaat niet vallen en gebruik het niet meer als het beschadigd is.

• Dit apparaat moet worden gebruikt bij een omgevingstemperatuur tussen 10°C/50°F en 35°C/95°F.

• Stel de thermometer niet buiten aan elektrische schokken.

• Stel deze thermometer niet bloot aan extreme temperaturen, hoger dan 50°C/131°F of lager dan -20°C/-13°F.

• Gebruik het apparaat niet bij een relatieve luchtvochtigheidsgraad hoger dan 80% of lager dan 25%.

• gebruik het apparaat niet in de buurten van sterke elektromagnetische velden zoals die van draadloze of mobiele telefoons, ...

• Wacht nadat u hebt gedoucht, gespoten, gegeten of gedronken minstens KENMERKEN

• Rectale, orale en axillaire meeting

• Smelle meeting in 10 seconden

• Soepel uiteind

• Geluidssalarm

• Er klinkt een keer een piepton bij het aanzetten van de thermometer.

• Er klinkt een lange piepton wanneer de gemeten temperatuur lager is dan 37,8 °C (96,8 °F).

• Er klinkt 3 korte pieptonen wanneer de gemeten temperatuur 37,8 °C (96,8 °F) of hoger is.

Er klinkt een korte piepton bij het aanzetten van de thermometer.

Er klinkt 1 lange piepton wanneer de gemeten temperatuur lager is dan 37,8 °C (96,8 °F).

Er klinkt 3 korte pieptonen wanneer de gemeten temperatuur 37,8 °C (96,8 °F) of hoger is.

• Automatische uitschakeling: de thermometer wordt na 10 minuten inactiviteit automatisch uitgeschakeld.

Dit is een belangrijk voordeel voor de gebruiksgemak van de thermometer.

• Automatische Abschaltfunktion: nach 10 Minuten ohne Betätigung oder Messung schaltet sich das Thermometer automatisch ab.

INFORMATIE NAAR DIESEM THERMOMETER

De Messwerte hängen von der Körperstelle ab, an der gemessen wird. Bei gesunden Personen können die Messergebnisse je nach Körperregion zwischen 0,2 °C und 1 °C (0,4 °F bis 1,8 °F) variieren.

EINLEITUNG

Sie haben sich für den Kauf des *Digital Thermometer DT-100* von LANAFORM entschieden – vielen Dank für Ihr Vertrauen.

Dieses Thermometer ist sowohl präzise als auch benutzerfreundlich und eignet sich zum Messen der Temperatur Ihres Babys rektal, oral oder unter dem Arm. Das Thermometer eignet sich für den Einsatz im häuslichen Bereich. Dank des extrem bliegenden und sanften Urtypen kann es leicht und schnell die Temperatur Ihres Babys in nur 10 Sekunden erfassen.

	(od 96,4 °F do 100,4 °F)	
Temperatura v ustih	od 35,5 °C do 37,5 °C (od 95,9 °F do 99,5 °F do 98,6 °F)	Navaden termometer
Temperatura v danti	od 36,6 °C do 38 °C (od 96,8 °F do 100,4 °F)	Navaden termometer
Običajne temperature glede na starost		
Starost	Temp. °C	
od 0 do 2 let	od 36,4 do 38,0	
od 3 do 10 let	od 36,1 do 37,8	
od 11 do 65 let	od 35,9 do 37,6	
> 65 let	od 35,8 do 37,5	
Nasvet LANAFORMA		
Nikoli ne primjerjajte temperatur, ki ste jih izmerili z različnimi termometri.		
Zdravnikov povetje, s kakšnim termometrom ste izmerili telesno temperaturo in na katerem delu telesa.		
Termometer se lahko segreje, če je pred merjenjem temperature predolgo v rokah. To lahko vpliva na rezultat merjenja.		
OPIS NAPRAVE	PRIPADAJOČI NAVSETI ZA ODSTRANJEVANJE OPPADKOV	
Termometer (SLIKA 1)	Embalaža je v celoti ustrezna iz materialom, ki niso nevarni okolju in ki jih lahko odlagate kot sekundarne materiale v vašem komunalnem centru za sortiranje. Karton lahko odložite v zbiralni zobjektiv za papir. Ovojne folije je treba odlagati v vašem komunalnem centru za sortiranje in recikliranje.	
	Ko ne boste več uporabljali aparat, ga odstranite na okolju ustrezni način in v skladu z zakonskimi predpisi. Pred tem odstranite baterijo in jo odložite v zbirno posodo za kasnejšo reciklajo.	
	▲ Rabljeni bateriji nikakor ne smete dajati v gospodinske odpadke!	
OMEJENA GARANCIJA	LANAFORM jamči, da je izdelek nima nobene napake v materialu in izdelavi, in sicer od datuma nakupa dalje za dober dve leti, in izjemno splošno navedenih primerov. Garancija LANAFORM ne krise škode, ki bi nastala zaradi normalne obrabe tega izdelka. Poleg tega garancija za LANAFORM-ov izdelek ne krise škode, ki je posledica kakršnekoli zlonamerne ali nepravilne uporabe, negozde, namestebovne neodobrene dodatne opreme, modifikacije izdelka ali kakršnekoli druge situacije, na katere LANAFORM ne more vplivati.	
LANAFORM ne bo odgovarjal za kakršnokoli vrsto naključne, posledične ali posebne škode. Vse implicitne garancije za ustreznost izdelka so omembe na obdobje dveh let od datuma		
Zaslonski prikaz (SLIKA 2)	Sistem kodifikacije, ki kaže stopnjo zaščite, ki jo daje električne opreme zagotavlja pred dostopom do nevarnih delov in pred vdorom trdih delcev ali vode. Zagotavlja dodatne informacije o tej zaščiti.	
Pozor, glejte navodila za uporabo.	Po spremembi na LANAFORM popravi ali zamenjaj vas aparata, odvisno od primera, v katerem ga poslaši nazaj. Garancija se izpolni samo preko servisnega centra LANAFORMA, pri primeru, da je kakršnokoli vzdrževanje tega izdelka izvajala katerokoli druga oseba, ne pa servisni centri LANAFORM, se ta garancija izniči.	
Priglašeni organ		
Zastopnik na Evropi		Ime: Prolinx GmbH Naslov: Brehmstr. 56, 40239 Düsseldorf, Germany Tel.: 0049-2131 4051968
Odpadna električna in gospodarska oprema (OEEO)		Ko se napravi izteč živiljenjske doba, je ne smete odstraniti skupaj z drugimi gospodarskimi odpadki.
ZASLON (SLIKA 2)		
1 Naslon spominja	1. Odstranite pokrov prostora za baterije.	
2 Izmerjena temperatura	2. Eno baterijo LR41 (prišložena) vstavite v prostor in pazite, da je pravilno usmerjena. Simbola za pozitiven (+) in negativni (-) sta v prostoru za baterijo.	
3 Merska enota za temperaturo	3. Znova namestite pokrov.	
4 Kazalnik stanja baterije		
VSTAVITEV BATERIJ (SLIKA 3)		
1 Odstranite pokrov prostora za baterije.	1. Odstranite pokrov prostora za baterije.	
2 Eno baterijo LR41 (prišložena) vstavite v prostor in pazite, da je pravilno usmerjena. Simbola za pozitiven (+) in negativni (-) sta v prostoru za baterijo.	2. Eno baterijo LR41 (prišložena) vstavite v prostor in pazite, da je pravilno usmerjena. Simbola za pozitiven (+) in negativni (-) sta v prostoru za baterijo.	
3 Znova namestite pokrov.	3. Znova namestite pokrov.	
ZASTAVITVE		
1 Zbirka meritev	1. Način merjenja je telesna temperatura.	
2 Termometer je izklopljen, za izbris meritev.	2. Način merjenja je telesna temperatura.	
3 Termometer je v zdravniku.	3. Način merjenja je telesna temperatura.	
4 Termometer je v ustih.	4. Način merjenja je telesna temperatura.	
5 Termometer je v ušesih.	5. Način merjenja je telesna temperatura.	
6 Termometer je v ustih.	6. Način merjenja je telesna temperatura.	
7 Termometer je v ušesih.	7. Način merjenja je telesna temperatura.	
8 Termometer je v ustih.	8. Način merjenja je telesna temperatura.
