NEW!

THE COMPACT

Comix
M1000

- Compact and powerful 1-gear machine
- Ideal for a wide range of mixing tasks up to 40 litres
- Modern design and pleasant to operate

- Electronically controlled speed via a safety switch
- Modern machine technology for reliable building site operation
- Metal frame protects against breakage and contamination

TECHNICAL DATA

Power:	1,010 Watt/230 V
max. Ø mixer:	120 mm/HEXAFIX
Load speed:	630 rpm

THE UNIVERSAL

Comix
M1400

- Powerful mixers for demanding work up to 70 litres
- 2-gear transmission for high power utilisation and flexible use
- Modern design
- Energy saving ergonomics

- Electronically controlled speed via a safety switch
- Modern machine technology for reliable and continuous operation
- Low wear
- Metal frame protects against breakage and contamination

TECHNICAL DATA

Power:	1,400 Watt/230 V
Ø mixer:	140 mm/HEXAFIX
Load speed:	400/620 rpm

WITH THE RIGHT MIXER YOU WORK BETTER AND WITH GREATER EASE

As different as the individual materials are is as different as the individual mixers need to be in their effect.

The material should be mixed quickly and thoroughly. This for example is why the individual mixer types generate different flow directions in the material. If one type optimally conveys heavy material upwards, then a different model effectively divides the lumps in the mass while another type quickly pushes liquid media downwards without spraying it.

Cutting-edge tool production ensures consistent quality, quiet and secure operation and a long service life.

Comix – FOR PROFESSIONALS WHO EXPECT MORE FROM THEIR TOOL

- Convincing in terms of quality and reliability
- Innovative technology saves time and money – less mixing time, faster results
- Less physically demanding – ergonomically optimised

C•mix

MIXING COMPETENCE FROM EXPERIENCE

Collomix – the international specialist for mixing

Mixing made easy – the C•mix-system:

- Powerful and reliable drives that don't let you down
- Innovative and simple tool connection
- Always the right mixer for your material
