

# Game Rules

## Action Game

The object of this game is to get rid of all your cards as soon as possible. First shuffle the cards and then deal 5 cards to each player. Put the remaining cards in a pile face-down, turn the top card over and place it next to the pile. This card will be the first card of the face-up pile. Any player can start the game.

The player whose turn it is must play a card with the same colour, number or symbol as the face-up pile. When a card with a symbol is played, the action related to that symbol must be performed. Then the next player continues. When no card can be played, the player must take the top card from the face-down pile. If that card matches it can be played, if not the turn moves on to the next player.

Continue clock-wise until a player has only one card left. Before playing the last card, the player needs to shout "**Shuffle**" in order to be the winner of the game.

If the player forgets to do so and the other players notice the player must take 2 cards from the face-down pile and continue play.

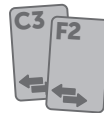

### Action Cards

If you play this card, you get an additional turn.

If you play this card, then the next player has to draw an additional card.

If you play this card, you can exchange all of your cards with a player of your choice.

If you play this card, the direction of play changes.
