

Fun ideas to make yourself

Hark the herald angels sing!

Further ideas and design in full size on www.marabu-creative.com → Tips & Ideas

From Marabu you will need...

- Decormatt Acryl in aubergine (039), medium brown (040), peach (224), crocus (089)
- Decorlack Acryl in white (070), black (073), pink (033), gold (784)
- DecorGlitter in gold (583)
- DecorGlitter-Glue
- Stencil „Snow Flakes“
- Fix-it adhesive spray
- Hobby brush, flat, size 12
- Stencilling brush, size 6

...you will also need:

- A sheet of plywood, approx. 5 mm thick
- Jigsaw or fretsaw
- Fine sandpaper
- Cocktail stick
- Tracing paper, pencil

Here's how it's done:

1. Copy the pattern onto the sheet of plywood using tracing paper and saw out the shape. Smooth the wood using sandpaper, especially the edges.
2. Prime the angel in crocus on both sides. Allow to dry. If necessary, copy the lines for the details (hairs, shoes etc.) again.
3. Paint these areas in the corresponding colours: shoes in aubergine, hair in medium brown, skin in peach, for example.
4. Paint the wings and the halo with Decorlack Acryl gold. When dry, spread DecorGlitter-Glue and sprinkle DecorGlitter on them. Tap off excess glitter.
5. The face is painted with little dots using a cocktail stick dipped into the paint. The bow and the patterns are also painted with little dots. Allow everything to dry.
6. Spray a thin coat of Fix-it on the stencil and allow to flash off. Then place the stencil onto the angel. Stencil a snowflake using a stencilling brush and DecorGlitter-Glue. Sprinkle the snowflake with DecorGlitter gold. Remove stencil, tap off excess glitter and allow everything to dry well.

Tip:

Alternatively, the stencil motif can be stencilled with Marabu-Glitter Liner gold or Marabu-Acrylic-Effects glitter-gold.
