

Fun ideas to make yourself

Colourful flags

From Marabu you will need...

- Marabu-MDF flags
- Marabu-Decormatt Acryl in the chosen colours
- Marabu-Universal brush, flat, size 20
- Marabu-Adhesive stencil "stripes" / "spots" / "checks"
- Marabu-Foam Paint Roller, set with 2 rollers

...you will also need:

- Masking tape, paper plate
- Decorative ribbon

Here's how it's done:

1. Cover the surface well. Prime the front and reverse sides of the flags using Decormatt Acryl and a brush. Don't forget to prime the edges. Allow to dry.
2. Lay the stencil on each flag by pressing down firmly. Pour Decormatt Acryl paint onto a paper plate and roll it out using a paint roller. Then roll the colour over the stencil to stencil the patterns. Allow everything to dry thoroughly.
3. Finally thread the flags on pretty ribbon and decorate.
