

Fun ideas to make yourself

A little something
for Christmas

From Marabu you will need...

- Marabu-Brilliant Painter, Fineliner tip 0.8 mm and universal tip 1-2 mm, in gold (084) and silver (082)

...you will also need:

- Bottles
- Cleaning agent
- Sheet of paper
- Pencil
- Tracing paper
- Masking tape
- Coloured card
- Scissors

Here's how it's done:

1. The surface must be dust and grease-free so that a good adhesion of paint is ensured. Wash the bottles with cleaning agent and dry thoroughly afterwards.
2. Before use, shake the painters well with the cap closed.
3. Press onto the tip repeatedly until the ink is visible in it.
4. Try using the painters on a piece of scrap paper first. Then the outlines of the motif can be painted onto the bottles.
5. You can either draw the motif freehand or you can use carbon paper. For this, put the tracing paper over the pattern, fix with masking tape on to the surface and go over the motif using a pencil while putting sufficient pressure on it to trace the drawing and paint with Brilliant Painter.
6. Cut out a star from coloured card and creatively design with Brilliant Painter. Fasten it onto the bottles with ribbon.
7. Finally let the painting dry for approx. 2 hours.

Tip:

To obtain an even paint flow the painter tip must be pressed occasionally during painting. For this, close the cap, shake the painter and just press 2-3 times.
