Have fun crafting!

FIMO shopping / material list

paisley bag charm

space for your notes

You will need these STAEDTLER articles:

product	colour	art. no.	quantity	✓
FIMO soft	white	8020-0	1	
	sunflower	8020-16	1	
	raspberry	8020-22	1	
	indian red	8020-24	1	
	apple green	8020-50	1	
FIMO effect metallic	gold	8020-11	1	
	opal green	8020-58	1	
blade set	--	8700 04	1	
acrylic roller	--	8700 05	1	
oven thermometer	--	8700 02	1	
gloss varnish	--	8703 01BK	1	

You will also require: smooth, ovenproof work surface (glass or ceramic), ruler, knitting needle, keyring with chain, small glass sparkly stones, a piece of coloured felt (e.g. green), a pair of zigzag scissors, Pattex MULTI all-purpose glue

Instruction for paisley bag charm

Roll out three strips of raspberry-coloured FIMO soft to an approx. 3 mm thick sheet and cut an approx. 7.5 cm long paisley shape out of it.

Place it on the work surface and smooth over the edges using your finger.

Roll out two strips of white FIMO soft to an approx. 1 mm thick sheet and then use the rigid blade to cut it into 7 mm wide pieces. Cut these strips in half lengthwise using the serrated blade so that you are left with a zigzag pattern.

Position these zigzag strips around the edge of the paisley shape with the zigzags facing towards the outside. When cutting the strips, make sure that the pattern is continued correctly. Smooth over the joins carefully using your finger and press the strips on gently.

Make a sausage out of one strip of Indian red FIMO. Wrap a 2 mm thick sheet of sun flower around it and then a 1 mm thick sheet of apple green. Roll the pattern cane to make it longer and thinner until it is 7 mm in diameter.

Cut off the ends and then divide it into 8 pieces of equal length. Flatten all of the pieces on one side so that, in cross-section, they look like flower petals. Arrange around a sausage of raspberry-coloured FIMO. Make more thin sausages out of raspberry and place these around the outside in between the individual petals. Finish off by wrapping everything in an approx. 2 mm thick sheet of raspberry.

Instruction for paisley bag charm

3

Roll the flower cane until it is approx. 1.5 cm in diameter and place in the fridge for ten minutes. This will help keep the nice flower pattern in shape until you've finished working with the cane.

Cut three approx. 1 mm thick slices off the cane and position them in the large curved end of the paisley shape.

Reduce the diameter of the flower cane to approx. 6 mm. Cut more slices off the cane and arrange these in the middle of the shape and in between the three larger flowers.

Create another pattern cane using gold FIMO wrapped in opal green. Roll it until it is 4 mm in diameter and place it in the fridge to cool.

Then cut lots of 1 mm thick slices off the cane and place them along the smooth side of the zigzag edging. If necessary, allow them to overlap at the pointed end. Position the decorative stones along the sides of the flowers and press everything on carefully.

Make a hole in the curved end of the dangler using a knitting needle and place in the oven to harden for 30 minutes at 110 °C.

After cooling, remove from the work surface, add a generous coat of varnish and leave to dry. Using the zigzag scissors, cut a paisley shape out of coloured felt making it approx. 5 mm larger than the FIMO one and stick it onto the back of the dangler. Make the hole through the felt too and attach the keyring.
