From Marabu you will need...

- Marabu-Do-it metallic spray, silver (082)
- Marabu-DecorGlitter, fine grain, silver (581)
- Marabu-DecorGlitter-Glue

...you will also need:

- Old ice-skates
- Kitchen roll
- Alcohol-based spirit
- Wooden stars
- Decorative balls
- Organza ribbon

Here's how it's done:

1. Clean the ice-skates thoroughly and remove the laces.
2. Protect your working surface with newspaper, shake can vigorously for 2 min. and spray the ice-skates evenly from about 30 cm distance. Allow to dry for 10 min., repeat spraying if needed.
3. After use always turn can upside down and spray until the valve is empty so that the valve will not be clogged.
4. Spread Glitter-Glue on the heels and sides of the soles and sprinkle with glitter while the glue is still wet. Pour back excess glitter into the tube. Add glitter to the wooden stars in the same way.
5. When dry, thread the ribbons in as laces and tie into bows. Decorate with baubles, greenery etc. as you like.
