

miosolo user guide

important: Please read this user guide before using and/or washing these products. Washed and/or used items cannot be refunded. Note: Bright colours may fade over time.

before use
Prewash hot (60°C).

care instructions

wash
Machine wash hot (60°C). Do not use chlorine bleach. May be tumble dried cold. Do not iron.

Fold back the Velcro® style tabs before washing.

Remove any excessive soiling from the nappy.

no soak method Nappies can be stored in a bucket until ready to wash. Simply lift off liner and place wet nappy in bucket. When ready to wash add 15mL (1 scoop) of

miofresh to your washing powder drawer and wash with non-biological washing detergent up to 60°C.

soak method Soak in a solution (15mL of miofresh for every 5 litres of water) for a maximum of 2 hours. Rinse in cold water or wash in non-biological washing detergent as normal.

dry
Pull absorbent core out using pull-out tab.
Tumble dry on cold or line dry.

staining Due to the nature of the product we cannot guarantee that this can be completely prevented. If staining occurs – use miofresh or a natural stain remover.

disposing of mioliners Soiled liners can be flushed one at a time. Wet liners can be disposed of in the rubbish bin.

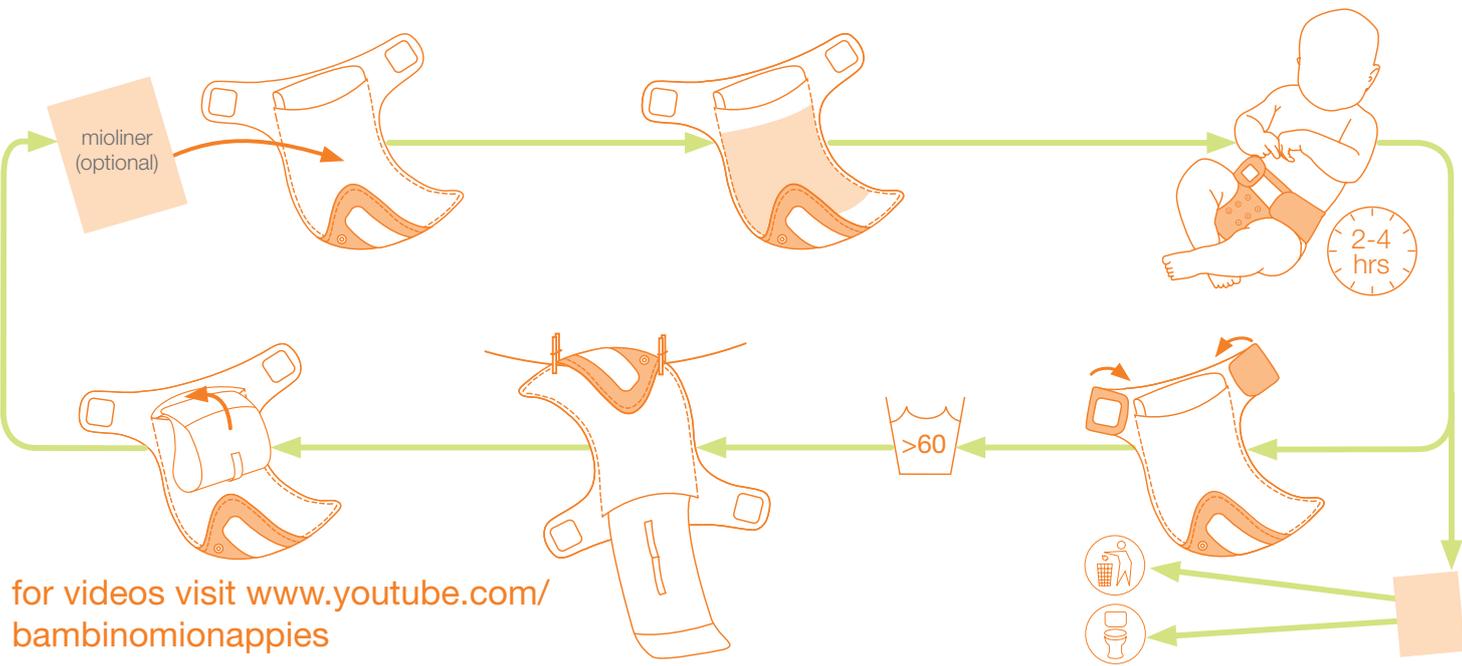

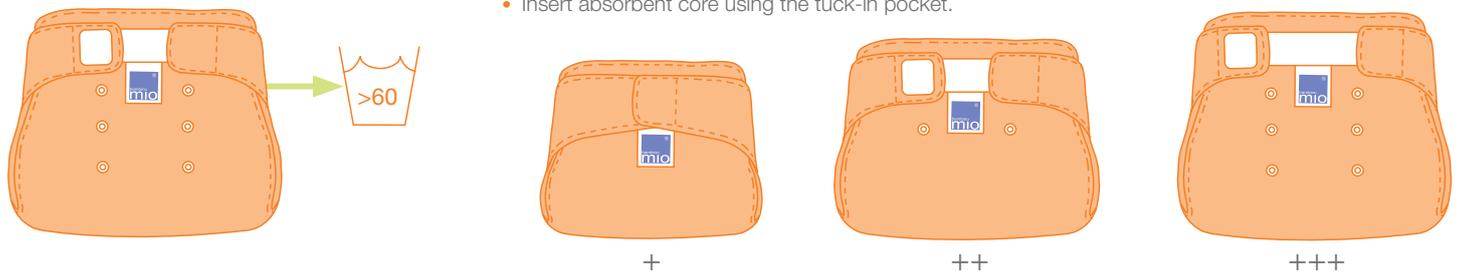

Caution: Flushing of liners may cause blockages. Bambino Mio accept no responsibility for individual drainage systems.

trouble shooting

- Have you pre-washed your nappies at 60°C? The nappies become more absorbent after the first few washes.
- Change nappies regularly every 2-4 hours.
- Do not use fabric softener as this will reduce the absorbency of the nappy.
- Do not fold the nappy liner.
- Remove the liner to improve the containment of loose stools particularly for breastfed babies.
- By adjusting the angle of the Velcro® style tabs, you can alter the size of leg openings.
- Use mioboost to increase absorbency.
- Use sunlight as a natural bleaching agent.
- Check the absorbent core is lying flat inside the nappy.

getting started

- Use poppers to adjust length of nappy to suit the size of your baby.
- Insert absorbent core using the tuck-in pocket.
